

FEATURES	<p>It is medium grade 100% pure acrylic emulsion formulated by special acrylic polymer to give excellent adhesion power and ideal primer for new masonry surface where the alkalinity is likely the cause paint defect. Non absorption function with special features: Super Matt finish, non reflective is ideal for hiding imperfections, excellent hiding power, and coverage, fungal resistance, no heavy metal added</p> <p>Typical Use ; It is ideal for applying to concretes, new masonry surfaces, plasters, gypsum board ceiling</p>

Type	100% Pure Acrylic Emulsion Paint																										
Color	White and Light grey																										
Film appearance	Super Matt																										
Solid by volume	34-36 %																										
Solid by weight	55-57 %																										
Flash point	N/A °C																										
Volatile organic compounds (VOCs)	less than 10 gram / litre																										
Wet film thickness	100-110 microns																										
Dry film thickness	40-50 microns																										
Theoretical coverage.	30-35 sq.meter / gallon / coat																										
Touch dry (25-30°C)	30 minutes																										
Recoat dry (25-30°C)	4 hours																										
Full cure (25-30°C)	7 days																										
REFERENCE STANDARD	<p>TIS 2321-2549(2006)(Weather Resistant Emulsion Paints), Green Label Thailand</p>

Surface Preparation																											
Old surface	<p>Powdery and chalky surface must be scrubbed and cleaned with water</p> <p>Fungus and mildew growth must be cleaned off before applying microkill. Left to dry for 2-3 days</p> <p>Apply on cracks with TOA Acrylic Filler for the crack width < 1 mm. and not to crack continuously</p> <p>Apply on cracks with TOA Acrylic Sealant for the crack width > 1 mm. and crack continuously</p>																										
New surface	<p>Substrate must be completely cured and dried (~ 1 month) free from oil ,grease ,mildew,from release agents and foreign matters.or measure moisture which should be less than 14% on surface with protimeter mini If any crack, it should be repaired on surface before applying</p>																										

Coating system

Primer For Old Surface

Paint&Primer For New Surface

Apply 1 coat of 4 SEASONS SUPER PRIMER or TOA CONTACT PRIMER

Apply 2-3 coats of 4 SEASONS EXPERT PAINT&PRIMER IN1 FOR CEILING

** Recommend for deep tone , you should apply middle coat that it has tone lighter before requiring color

HANDLING AND STORAGE

Storage condition

: The product must be stored in accordance with national regulations.

Keep the containers in a dry, cool, well ventilated space and away from source of heat and ignition.

Containers must be kept tightly closed.

Shelf life

: 5 years at 30-35 °C.

HEALTH AND SAFETY

: Please observe the precautionary notices displayed on the container. Use under well ventilated conditions. Do not breathe or inhale mist. Avoid skin contact. Spillage on the skin should immediately be removed with suitable cleanser, soap and water. Eyes should be well flushed with water and medical attention sought immediately.

: For detailed information on the health and safety hazards and precautions for use of this product, we refer to the Material Safety Data Sheet.

DISCLAIMER

: The information in this data sheet is given to the best of our knowledge based on laboratory testing and practical experience. However, as the product is often used under conditions beyond our control, we cannot guarantee anything only the quality of the product itself. We reserve the right to change the given data without notice.
